MY INTRODUCTION

Hi, I'm Alex. I'm interested in Selling and Communicating. I volunteer at a mission center to support and mentor inner-city youth.

3

MY EXPERIENCE

While working at the mission center, I help youth understand the importance of staying in school to continue their education. I also encourage them to join after-school sports and clubs as a way to meet people and become an important part of school activities.

By understanding the needs of my group, I am able to sell them on the idea of getting their high school diploma and communicate the value it will bring to their lives. I am proud that I am able to have a positive impact on these young people!

MY INTRODUCTION

Hi, I'm Lauryn. I'm interested in Developing Others.
I encourage my teammates to push through hard workouts and excel at meets.

3

MY EXPERIENCE

As a member of my high school's Track and Field team, I use positive feedback to encourage my teammates to perform their best at practices and meets. Our coach assigns difficult workouts, and I encourage my friends to 'get the monkey off their backs' and fight through fatigue. At Field events, I cheer on my teammates because generally there are fewer spectators. By communicating my belief in our team's success, I help accomplish our goals of attending the KU Relays and sending our team members to State!
