

## ANN ZIMMERMAN

### Special Projects Consultant

Ann Zimmerman has supported the work of non-profits for over 30 years. Currently, she works as a Special Projects Consultant with The DeBruce Foundation creating innovative strategies for career exploration and integrating the Agilities. Ann has a background in strategic planning and marketing, leadership and program development, event management, fundraising and governance education. As a skilled facilitator, problem solver and communicator, she thrives on building consensus and moving organizations forward. In 2011, she was part of the planning team to develop the KC STEM Alliance and serves as the coordinator of the region's STEM learning ecosystem, STEM Connect-KC. Ann has a Bachelor's in Respiratory Therapy and a Master's in Health Sciences Administration from the University of Kansas.
